## **Service Provider Announcement: Sanitation and Garbage**

After months of analysis, the Town of Pike Road recently made the decision to change sanitation service providers. This choice was made to provide residents with increased efficiency, more options, and newer equipment.

The Town of Pike Road has secured the services of AmWaste to begin providing garbage pickup for residents of the Town of Pike Road on June 1, 2018. All current residents will receive information from AmWaste on establishing an account, and residents will receive a new AmWaste garbage can during the week of May 15. Please continue using your Advanced Disposal garbage can until June 1. There should be no interruption of services.
